

Coaxial Isolator 3 to 6GHz

- ∅ Good temperature behavior,high aseismatic capability.
- ∅ Low insertion loss,high power handling,low IMD design.
- ∅ Meet RoHS standard, high quality,low price,fast delivery.
- ∅ Commercial, military and space applications.
- ∅ May according to demand making to order.
- ∅ One year standard limited warranty.

Product Specifications:

Part Number	Freq. Range (GHz)	Bandwidth Max. (MHz)	Insertion Loss Max.(dB)	Isolation Min. (dB)	VSWR Max.	FWD/REV Power (W)	Connector Type	Temp. Range (°C)
SS-CI2528B	3-6	Full	0.5	18	1.3	100/20	N/SMA	-30~+70

* The narrower frequency range you choose, the higher performance and lower cost you can expect.

* If your requirement not in list, we still can make it, please contact us.
